

AGAINST THE TECHNOLOGY OF CONTROL

FACE THE FEAR - FIGHT THE FUTURE

The COVID-19 pandemic is part of the techno-prison world known as the **Fourth Industrial Revolution**. The lockdowns and the quarantine laws are designed to intimidate people into obeying, Let's break the rules, riot in the streets and attack the Technocratic State that will use 5G to build this matrix. Fascism as a political project has always looked like this:

- 'State of Emergency' laws suspending any granted 'rights'**
- Control of the media and censorship**
- Personal relationships recorded and controlled**
- Protests banned**
- Local and international movement restricted**
- Snitching encouraged**
- Police control of everyday life**
- Necessities dictated and controlled**
- Behaviour modification on mass scale**
- Sudden, arbitrary and ambiguous legislation to wear down population**
- Using the fear of endangering others to control individuals (collective punishment)**
- Party members immune from rule of law**
- Technological innovation**

Our enslavement relies on our compliance.
